Shri VALAMPURI JOHN
“ SANDHANAM “

I have the privilege of knowing Shri K.Baskaran of Madurai, for a few years. I have watched him making good predictions through his wonderful system of Interlinks theory in Modern Astrology which has its roots in the well known Krishnamoorthy Pathathi method of Sublord theory.

He has propagated hundreds of interesting points to substantiate his conviction that only the 12 cusps with their interlinks are responsible to carry out the events in one's life rather than the planetary significations as many of the traditional astrologers believe.

I am sure that this work will be well received in the world of astrologers of the new Millennium as a useful tool for successful predictions.

I wish Shri K.Baskaran all the very best in his keen research works in this field.

FOREWORD

Astrology has deep roots in the history of mankind and we hear many success stories of the ability of the astrologers to predict the future events with great precision. However, for every successful prediction that we hear, there are many dozens of inaccurate predictions. Then we hear that in addition to the knowledge of the rules of astrology (I do not know how many hundreds are there), one should have divine grace to give predictions. If it is based on divine grace, then the doubt arises whether it is a scientific method.

While, I was interested in astrology only as a bystander, a few years ago I had an opportunity to meet **Sri K. Baskaran** of Madurai and get exposed to the enchanting world of astrological predictions. In fact, with his guidance, I was able to make accurate predictions for the simple questions like "When can I meet a person?" and to the more advanced questions like "What is the nature of disease?"

etc. His method is unique and the rules are much simpler. He blended the concepts of Kalapurusha Thathva and the Placidus system of house divisions elegantly into his basic theory of Cuspal Inter Links. When one applies cuspal interlinks directly, one is bound to meet situations where the same planet is connected to more than a single cusp. This gives rise to "**complex effects**". Death of child on the day of inauguration of a new house, birth of child and death of mother, etc., are examples well known to all of us. The cuspal links, which cause such effects, are clearly brought out by studying compound links and I think this prompted him to bring out the present book.

Mr Baskaran is a person who is willing to share his knowledge unlike many others. With his love for the subject of astrology, his years of experience in studying and carrying out research, he has written this excellent book "**Applications of Cuspal Interlinks**". I had an opportunity to go through this book and I see that he has presented such a complicated subject in a very lucid manner by taking a sample horoscope. While the possible number of combinations is extremely large, the style of presentation helps one to evaluate new cases with confidence and develop explanations for new combinations and situations.

I am very confident that this book, along with its previous two companion books, is going to be a handy reference book for all serious students of astrology who are interested in giving accurate predictions. I am confident that this book will certainly get the same great reception from fellow astrologers as his previous books did.

Mr. S.Gnanasambandan who is also a personal friend of mine, deserves all the praise for doing a great job of translating the text into English.

Om Mahaganapathaye Namaha
TO THE READERS

Shri A.R.BALAN

Jeeva Nagar I St,
Jaihindpuram,
Madurai -625 011.

Friends,

We have just entered into the new millennium with new questions and challenges placed before astrology. This science of futurology, has to prove its validity and credibility as with any other science. The science of calculation in astrology Was made to perfection by Prof Shri K.S.K. But still something was required to be appended as astrologers have been facing certain difficulties in predictions with the usual signifiers. Some of them even went to the extent of substituting with the tradition based ideas for predictions. But, *Shri K.Baskaran, with his faithful study, has proceeded for solutions to complicated and complex questions of modern day life with the use of Cuspal interlinks based on the prime concepts of Prof Shri K.S. Krishnamoorthy to evolve a new and novel system of astrology as "Krishnamoorthy • Baskaran" (KB system).*

I feel proud about my disciple *Shri K.Baskaran* all the time, and this present work is really going to glitter as a jewel in the crown. He has indeed opened a floodgate for all the modern thinking astrologers to delve in gleefully to quench their thirst in this great science. It is my desire now to request all the dear readers to take up and carry on with this research work for the benefit of humanity in general. It is with great appreciation that I must herewith record about the support, suggestions and able guidance of Mr S.P.Khullar in the format of this book.

I should also appreciate the efforts of Shri **S.Gnanasambandan**, Senior Announcer, AIR, Madurai and Shri J.Rama **Subramaniam** for their commitment in bringing out this translation work. They have properly understood the inner meanings of what *Shri K.Baskaran intended to say and elaborated the same according to the point of view of readers. I pray God Almighty to let the spirit of this team to continue in all their future efforts.*

Good luck.

Shri A.R.Balan,

NOTE OF TRANSLATORS

Dear friends,

Astrology is amidst the recent controversies for its possible inclusion as a branch of study in universities. It has been condemned by its critics as an act of saffronizing the education system with Hindu fundamentalism. If we know what had happened to other empirical sciences, we ourselves would not demand for such a dogmatic inclusion of Astrology as a subject of study, as it could only defeat the very purpose and the significance of astrology.

But our concern here is the science-worthiness of astrology as rightly questioned by its critics. Though it is painful to admit, it is a fact that the present day astrology could never withstand before the specifications for deeming it as a science. Even if Astrology could succeed in finding a place as a faculty of study in universities due to the political patronage that it may possibly gain, we don't believe that the traditional astrologers would be generous enough to award due credit to **Shri R.Gopalakrishna Rao(Meena)** & to the Jothida Marthand **Shri K.S.Krishnamoorthy**. What is more painful to us is the fact even the so called followers of **Shri K.S.K** have not rendered due justice to his

teachings. "The objectives are often defeated when they are institutionalized", is the prime propogation of **Shri J.Krishnamoorthy**, the popular philosopher of our times. Unfortunately this was what had happened also to the teachings of **Shri K.S.K.**, The non-availability of calculators and computers and lack of needed proofs to withdraw courageously and scientifically from the remains of a set of traditional concepts like aspects, retrogression etc., have limited **Prof K.S.K.**, to leave certain shortcomings in his methodology.

Only in this context, **Shri K.Bhaskaran**, the author of this book, is to be appreciated for his contrubitions for the enlightenment of the teachings of his guru, **Shri K.S.K** by innovating the theory of "**Cuspal Interlinks**". At this moment, we feel really very proud for being the associates of this unique astrological work, "**Applications of Cuspal Interlinks**". We are aware that this book would stand as a milestone in the history of astrological researches. There were a few such attempts, in the footsteps of Late **Shri K.S.K.**, The basic differernce between such earlier attempts and this book lies in the scientific, the complete and the rational approach in applying the principles of astrology with the use of "**Kaalamsas or Sublords**".

After the release of the previous book, **"Principles of Cuspal Interlinks"**, there were a few murmurs by a set of KP followers who preferred to show themselves as the saviours of the sanctum sanctity of KP system rather than upholding it as a system of science. We believe that the god of times would make them to accept and realize the contributions of **Shri K.Bhaskaran**, in the times to come. We are confident that the readers would find this book as a completely different and thoroughly useful one on astrology.

Good Luck

CHART

(Please refer to the Example Chart)

In studying the Ascendant-dependant matters of every house, first of all, it is mandatory to assess the potential of the ascendant before analyzing the strength of any house. Note the starlord of the sublord of each cusp and study its position of favour to the asc and not to themselves. Only to the matters of their own entity, the position of favour is to be studied to themselves.

Personal capacity to think and act, gain or loss of energy, attraction, pleasures and character are the prime significations of the 1 house, the Asc.

VI HOUSE HOUSE OF SUCCESS

Service, Servants, Pet animals, Loans, Debts, House for rent, Herbal Plants, Success or Favourable scope in speculations, Sports and Games, Gamblings, Hurdles and problems, Theft, Dangers, Prison, Handicrafts etc are some of the significations of the 6th house, that are unrelated to the Asc.

To simplify, the above significations are being re-classified and listed below, as the significations that are meant to link with the remaining houses:

- I: Diseases, Success, Self-endeavours
- II: Money raised through Loans
- III: Litigations
- IV: Purchases
- V: Compromise in Litigations, Cure from diseases, Feasts
- VI: Service, Servants and Subordinates, Separation
- VII: Excessive Food, Bank Loans
- VIII: Worries caused by Loans, Litigations & Diseases, Hard labour
- IX: Success in research, Financial crisis

due to loans, Break-down in profession
due to servants

X: **Service** as Profession, Promotion

XI: .Success in Litigations

XII: Allergy, Inactive, Clearing debts, Divorce,
Investment by acquiring loans, Changes
in service conditions

The VI house is a house of favour to
houses 2,4,6,8 & 10, while it remains neutral to
houses 1,5 & 9; and would unsettle the
significations of houses 3,7,11 & 12. This could
be experienced when the sublord of the
respective houses remain in the star or the sub
of the sublord of the VI cusp. In return these
houses would stand as means to execute the
significations of the 6th house and would
perform as follows:

I onVI: Diseases caused by one's own
thoughts and acts

II onVI: Diseases in Eyes & Throat

III onVI: Diseases in Blood Veins, Nerves and
Sensory organs

IV onVI: Diseases in Heart, Lungs, Kidney and
Glands

V onVI: Diseases in Blood cells or Uterus, Viral

fever

VI on VI: Diseases caused by Food, Dress, Medicines and Labour

VII on VI: Contagious Diseases, Climatic & Veneral Diseases

VIII on VI: Sudden diseases, Blocks and Death

IX on VI: Genetical disorders, Malfunction or changes in organs, Swelling

X on VI: Professional diseases, Excessive production inside body.

XI on VI: Viral fever, Improper care and attention

XII on VI: Secret diseases, Coma

In reverse, houses 1, 5, 9 & 12 would deny the prospects of the 6th house as they happen to be 8, 12, 4 & 7 to the 6th house; houses 2, 4, 6, 8 & 10 would favour the functioning of the 6th house whereas houses 3, 7, 11 would remain as neutral to the 6th house. The above could be possible when the sublord of the 6th cusp remain in the star or the sub of the sublord of the respective houses. In return the 6th house, while acting as a carrier of the significations of the concerned houses, would register its reactions in executing the same, which are as follows:

- VI onAsc: Diseases caused by Food Habits
- VI on II: Resistance to Diseases
- VI on III: Deficiency in Energy
- VI on IV: Prolonged Illness
- VI on V: Cure from diseases by Prayers
- VI on VI: Diseases caused by workload

- VI onVIII: Sudden developments in diseases
and damages to organs
- VI on IX: Changes in Appearance and
Structure, Medical science
- VI on X: Excessive Production by organs
- VI on XI: Temporary diseases, Medical
Research
- VI on XII: Diseases leading to Hospitalization

Generally the VI house is a house of diseases. While it is linked with the VIII house, the diseases would lead to damages in the organs of the body. Houses 6, 8 & 12 would give stress, pain and hospitalization; houses 3, 6, 8 & 12 would jointly denote the removal of such parts of the body or amputations and 1, 3, 6, 8 & 12 would make a person as a handicapped person. 1, 4, 6, 8 & 12 would make a person to become handicapped by way of accidents.

POTENTIAL of the VI HOUSE:

In this chart, the sublord of the VI house Sun is in the star of Venus, the sublord of the 12th house and in the sub of Rahu, the sublord of 7th house. Sub negates the star; Hence, the 6th house as it is linked to the 7th house, becomes stronger to its own significations.

Planets Moon & Mars are in the star of Sun, to become the permanent carriers of the 6th house. Rahu is in the sub of Sun, to be a second line significator of the 6th house.

POTENTIAL OF THE VII HOUSE:

In this example chart, Rahu, the sublord of the VII house is in its own star but in the sub of Sun, the sublord of the 6th house to weaken the potential of the VII house.

6 is a house of denial to the 7th house; Does it mean here that the native could not marry at all? As far as the matter of marriage is concerned, only if both the Asc and the VII house are denied with their opposing houses of marriage and sexual pleasures {Houses 4, 6, 10 & 12} we have to presume that the event of marriage would be denied. Here the Asc sublord Mars is in the star of Sun, the 6th sublord but in the sub of Rahu, the 7th sublord to gain a favour for the event of marriage.

However, in this chapter, we have to confine ourselves to the study of the prospects of the VII house with the remaining 11 houses; Hence, the principles to marriage and the procedures to time the event of marriage would be dealt in PART II of this book with the use of few other examples.

Since the potential of the VII house is very weak, the married life of the native is not going to be a bed of roses for him.

HIGHER EDUCATION & IX HOUSE:

Higher education is an Asc related karaka of the IX house. Whether a person may get educated or not could be studied with the use of the potential of the IX cuspal sublord to the Asc. In this example chart, the IX sublord is Moon which is in the star of Sun, the 6th cuspal sublord and in the sub of Rahu, the 7th cuspal sublord. Houses 6 & 7 would remain as houses 6 & 7 to the Asc. Hence, the potential of the IX house, to its Asc related significations, remains only as neutral or moderate.

For the study to identify the specific field of education, we can use our usual format. The professional courses are meant for providing professional opportunities to students. Only a small percentage of people choose different professions that are not related to their higher studies. Generally to study a professional course, the sublord of the 9th house must remain in the star or the sub of houses VI {Service} or the X house {Profession} or the XII house {II profession}.

1. III: Certificate holder in the fields of Engineering\ Medical
2. IV: Diploma holder in EM fields
3. VI: Unskilled but works in EM fields
4. VII: Experience in EM fields
5. IX: Degree holder in EM fields or Practitioner of Traditional Medicines
6. XI: Master in EM fields
7. XII: Researcher in EM fields

The above indicate the nature and the quantum of the technical knowledge that a person would hold as qualification. Let us once again use the bhava karaka or the cuspal significations in further re-classification of the engineering field:

- II: Sound Engineering
- III: Electrical, Electronics and Communications, Computer science, Printing Technology
- IV: Agricultural Engineering, Civil or Automobile Engineering, Mechanical Engineering
- V: Architecture, Film Technology, Atomic Energy and Nuclear Science
- VI: Geologist, Textile or Leather Technology,

- Petro Chemical Engineering, Medical Radiology and Electrology
- VIII: Surgical Equipments, Sanitary Engineering
- IX: Aeronautical or Marine Engineering, Space Technology
- X: Production Technology
- XI: Polymer Technology
- XII: Mines Engineering

Thus, when the 4th or the 9th house is linked to the VI or the X or the XII house, the educational qualification would stand as means of career.

i) Let us note down the planets which are in the star or the sub of 4th or the 9th house as the case may be.

ii) Now let us note down the cusps, wherein the said planets appear as lords of star or sub or subsub.

Say, if a planet A is the sublord of the 6th house; also let us say that the native gets to study medical science or science about diseases.

iii) The Dasa period of the planet A, which is sublord to the 6th house alone and is in the star or the sub of the 9th house, would enable the native to study medical science as per its planetary significations.

If Planet A is SUN : The Skeletal system

MOO: The Circulatory system

MAR: The Muscular system

MER: The Neuro system

JUP: The Reproductive system

VEN: The Glands in the body

SAT: The Excretory system

RAH: The Respiratory system

KET: The Digestive system

iv) If the said planet A happens to be the starlord or the sublord or the subsublord to houses other than the 6th house, then a set of combined significations of all those houses that are linked, is to be derived. For example

v) Generally the II house would denote eyes. houses 2, 3 & 6 are to be related to the IX house to become an Ophthalmologist. But within the field of Ophthalmology itself, we could find a variety of doctors in any popular eye hospital.

Eye Disorders :- Squint ...: 2

Glaucoma.....: 2 (Moon), 6 & 8

General Eye Disorders :-

Spectacles, IOL.....: 2, 6

Loss of Sight.....: 2, 4 & 8

Eye Transplantation.....: 2, 4 & 9

vi) Only after this stage, we can start studying the planetary significations of the lords of the current DBA, for the precise prediction about the field of study by native. Higher studies would also get varied according to the changes in the DBA periods. Now-a-days, a

person, who has initially joined in a particular course, all of a sudden {8th house ?} discontinues it and joins in a different course and subsequently gets qualified. These changes are subject to the changes in the DBA periods.

vii) There may be more than a single planet in the star or the sub of the sublord of the IX house. These planets would naturally be lords of the star or the sub of different cusps. If planet A is lord to 2 & 6 and planet B is lord to 1 & 5, then the native would naturally study two different courses in the respective bhukthi periods of planets A & B. In medical science, the degree of MBBS {6th house alone} is a common course offered to all the students. But after successfully completing the MBBS degree, doctors opt for specialisation in different fields, as per the cuspal interlinks of the Bhukthi lord or the DASA lord in the case of intersection of two different dasas.

viii) In the case of a qualified doctor in traditional medicine the 9th house must get linked to the 9th house itself. In the case of unqualified practitioners of Indian medicines, the 8th house will have a link with the 10th house, { 8th by being 12th to the 9th house, negates legal recognition to their medical

knowledge}

ix) The linkage of the IX house to the X, makes a person a doctor; linkage to the IV house limits a person to a nurse. Thus we have to apply principles of cuspal interlinks suitably with common sense in determining about the education and profession.

Houses 1,5,7,9 & 11 would be favourable to the 9th house, while houses 12,3,4 & 8 stand unfavourable to the significations of the IX house. The remaining houses 2, 6, 10 would remain neutral to the IX house. This could be possible when the sublord of the IX house remain in the star or the sub of the respective houses. In reply, as an agent to the respective houses, the IX house would register its reactions on the respective houses. {Please refer the table Of classification of significations of the 9th house as meant to link with the 12 houses}

POTENTIAL OF THE IX HOUSE:

In this example chart, the IX sublord is Moon, which is in the star of Sun, the 6th sublord and in the sub of Rahu, the 7th sublord. Houses 6 & 7 would become houses 10 & 11 to the 9th house to favour the IX house. Hence

in this example chart, the IX house is potentially strong.

Here, the readers may raise their eye brows in a doubt as how this native had been denied with higher education. Houses IV, IX & XI combinedly denote the education of a person; IV renders basic education; IX renders higher education while the XI makes one to excel in education. XI follows what the IX has rendered while the IX would improve what the IV has rendered. Moreover, education is an Asc related signification of these houses. Hence the favour is to be calculated only to the Asc { 6 & 7, in this example, not a favourable combination to the Asc}.

Also in this chart, the IV house is weak to give him the basic education. As the basic education has been denied, naturally the IX house would be limited to act for the remaining significations only.

Moon is the 9th sublord. The karakas of the Moon, meant for the IX house are.

Research capabilities, Speedy Journeys, Status inherited from Mother, Wisdom through listening etc.,.

In this example chart, Venus is the only planet which is in the star of Moon.

By being the 12th sublord Venus would render financial difficulties and troubles caused by women, research in the fields of arts and culture etc.,.

While the significations of Moon remain permanent during the entire life span of the native, the significations of Venus would come to the fore- front during its DBA periods on the IX house matters.

ASC on IX:

Asc is a naturally favourable house to the IX house. In this chart, the sublord of the Asc is Mars which is in the star of Sun, the 6th sublord and in the sub of Rahu, the 7th sublord. IX house, a favourable house to the XI house, as it carries 6 & 7 with it, would modify into an unfavourable house to the significations of the XI house. Hence the native would be troubled through illegitimate affairs and remain stagnant in research works during the DBA periods of Moon, while it also transits in the star of Jupiter, the XI sublord.

XII on IX:

XII house is an unfavourable house to the IX house. In this chart, the sublord of the XII house is Venus which is in the star of Moon, the 9th sublord and in its own sub, the 12th sublord. Houses 9 & 12 combinedly would not favour the IX house matters, in this chart.

The principles of linkage of the XII house with the IX house are:

- 9,1: Changes in the Body due to the Process of Medical Treatment
- 9,2: Financial Crisis caused by Secret Activities
- 9,3: Foreign Life, Running away from the native, Research Education

In this example chart, the XII house is 9

the native would face financial crisis due to
inactive second profession during the DBA
periods of Venus, while it is also in transit of
the star of Moon, the 9th sublord.

IX on XII:

General principles of linkage of the IX
house with the XII house are as follows:

Hence the native would be able to gain success through research but the expenditure would get increased due to illegal activities during the DBA periods of Moon, while it transits in the star of Venus, the XII sublord.

X house would be a favourable house to houses 2, 6, 8, 10 & 12 while it would negate the prospects of the houses 3, 4, 7 & 11; it would remain neutral to the houses 1, 5 & 9. This may happen when the sublord of the concerned

houses remain in the star or the sub of the sublord of the X cusp. In reply, these cusps tend to register their reactions on the X cusp according to their respective significations, as mentioned above.

Houses 2, 6, 8, 10 & 12 would stand as favourable to the X house while houses 4, 5 & 9 would be unfavourable. Asc is an exception as far as to the significations of the X house is concerned. Houses 3, 7 & 11 would remain neutral to the X house. In reply, the X house provides reactions on these houses, which are as follows:

X on I: Status through Profession

X on II: Income through Profession

X on III: Transfer or Assistance from others
in Profession

X on IV: Motives and Jealousy in Profession

X on V: Suspension or Dismissal

X on VI: Promotion and Recruitments

X on VII: Partnership Business

X on VIII: Hard labour with large workloads

X on IX: Retirements, Closure of Business

X on X: Developments in Profession, Honesty

X on XI: Higher Posts

X on XII: Second Profession

"POTENTIAL" of the X HOUSE:

The sublord of the X house would always remain in a star and a sub. This starlord and the sublord may appear as cuspal sublords of a few houses. In this example chart, the X sublord is Mercury, which is in the star of Venus, the 12th sublord and in the sub of Rahu, the 7th sublord. Houses 12 & 7 would be houses 3 & 10 to the X house, not an unfavourable combination. But houses 12 & 7 are not favourable to the Asc. Hence, the profession would not bring reputation or status to the native.

10th sublord when it is connected to the 12th house, would multiply the scope of professional opportunities and would lead the native to start a second venture. Since the link is also with the 7th house, the native either could do self-ventures or could act as a free-lancer and would suffer in the end. The native could never be in service as the 6th house, the house of service, is not linked by the X house.

The sublord of the X house, Mercury signifies Contracts, Accounts, Agencies, Brokerage etc

Now, can we study the second angle of the question of profession? In this example chart,

Jupiter is the only planet, which is in the star and the sub of Mercury, the X sublord. Jupiter is the sublord of houses 5 & 11. Hence houses 5 & 11 are in direct linkage with the X house.

5th house, would enable the native to choose a feather from the numerous fields of arts as his profession. 11th house would enable the native to get due satisfaction in his profession.

Jupiter: Devotion and God-fearing, Brilliance, Faithful (5 & 11) friends, Scholar (PCI - P.N 28, 29)

While the pre-settings of the X sublord Mercury is permanent during the entire life-span of the native, the **planet** Jupiter, the resident in the star and the sub of Mercury would enable the native to reach professional heights during its DBA periods.

ASC&X

Asc is an unfavourable house to the X house. But Asc, because by being so, is an exception by not doing any misfavours to other houses. The Asc sublord Mars, in this example case, is in the star of Sun, the 6th sublord and in the sub of Rahu, the 7th sublord. Houses 6 & 7 would become houses 9 & 10 to the X house, to mean that the Asc would become a favourable

house to the matters of the X house.

The principles of linkage of the Asc on the X house are as follows:

Here Asc is not directly linked with the X house. But the planet Mars, must sail across the stars of Mercury for about 20 days in every semester. Hence the sublord of the Asc, Mars would have to render something or the other to

the X house to justify its Gochara or Transit linkage. 6th house means permanency, success and assistance from others; 7th house means social contacts and self ventures. Hence during the DBA periods of Mars, when it happens to transit in the star of Mercury, the X sublord, would enable the native to take initiatives to gain success and assistance from others and would mould the character of the native as suited to receive new social relations.

Houses 12 & 7 are houses 3 & 10 to the X house to remain a neutral house. IX house is a house of negation to the 10th house. But in this example chart, since the sublord of the IX house Moon is in the star of Sun, the 6th sublord and in the sub of Rahu, the 7th sublord, or to say as significator of houses 9 & 10 to the X house, the IX house becomes a favourable house. Hence, the native could carry-out research in his profession and could gain reasonably in his professional life during the DBA periods of Moon, the 9th sublord while it is also in transit in the star of Mercury, the X sublord.

X on IX

General principles of linkage of the X house with the IX house are as follows:

- 9,1: Resigning the Post due to False Prestige
- 9,2: Resigning the Post subsequent to Wordy Quarrels
- 9,3: Submitting the Resignation Letter

- 9,10: Reinstatement to the same Political Post
- 9,11: Counsellor to the Successors
- 9,12: Change of Political Posts

Generally X house is neutral to the IX house. But in this example, the X sublord Mercury, because it is in Venus star, the 12th sublord and in the sub of Rahu, the 7th sublord and thus being a significator for houses 12 & 7, or to say houses 4 & 11 to the IX house, would force the native to face losses from unknown persons in his professional life and would educate himself out of his personal experience and make gains in his research activities during the DBA periods of Mercury, while it also transits in the star of Moon, the IX sublord.

X on X:

As detailed in the paragraph for the potential of the X house, the X house when linked temporarily to the X house, by way of transit, would further weaken the professional life of the native; It would induce the native to make excessive investments and would make him incompetent to face his professional opponents.

XI house is neutral to the 10th house. But in this example chart, since the sublord of the XI house Jupiter is in the star and sub of Mercury, the cuspal sublord of houses 2, 4 & 10, or to say houses 5, 7 & 1 to the X house, it modifies into a favourable house. Hence, the native could gain satisfaction in professional ventures during the DBA periods of Jupiter, the 11th sublord while it is also in transit in the star of Mercury, the X sublord.

X on XI

General principles of the linkage of the X house with the XI house are as follows :

Generally X house is a house of negation to the XI house. But in this example, the X sublord Mercury is in Venus star, the 12th sublord and in the sub of Rahu, the 7th sublord and thus being a significator for houses 12 & 7, or to say houses 2 & 9 to the XI house, would force the native to incur losses by way of excessive spendings in company of friends and in professional process during the DBA periods of Mercury, while it transits in the star of Jupiter, the XI sublord. It would also bring litigations on properties and would put him into financial troubles.

XII on X:

- 10,1; Status and Respect through 2nd Profession
- 10,2; Income through the 2nd Profession

- 10,4; Manufacturing as the nature of 2nd Profession

- 10,7; Returning to the First Profession subsequent to the hurdles faced in the 2nd Profession
- 10,8; Excessive Labour and Mental Strains in managing both the Professions
- 10,9; Winding up the First Venture subsequent to commissioning of the 2nd Profession
- 10,10; Enhancement of Status and Respect to the First Profession through the 2nd

Profession

10,11; Winding up the 2nd Profession due to the Capital Requirements of the First Profession

10,12; Professional Successes in both the Ventures

XII house is favourable to the Xth house. Here in this example chart, since the sublord of the XII house Venus is in the star of Moon, the 9th sublord and in the sub of Venus, the 12th sublord, or to say houses 12 & 3 to the X house to remain as a favourable house. Hence, the native could succeed in his researches by way of applying them to the practical purposes to cater new professional opportunities during the DBA periods of Venus, the 12th sublord while it is also in transit in the star of Mercury, the X sublord.

- 12,10; Respects earned by way of the 2nd Venture
- 12,11; Hurdles in the Attempts for the 2nd Venture
- 12,12; Excellence in both the Ventures.

Generally X house is favourable to the XII house. But in this example, the X sublord Mercury, because it is in Venus star, the 12th sublord and in the sub of Rahu the 7th sublord and thus being a significator for houses 12 & 7, or to say houses 1 & 8 to the XII house, would force the native to face the threat of lock-outs and breaks in his profession during the DBA periods of Mercury, while it also transits in the star of Venus, the XII sublord.

PLANETS: (to the X house)

While Jupiter and Mercury, the planets that happen to have a direct linkage with the X house, would act for the X house significations during their entire DBA periods, the remaining planets also would act for the X house significations whenever they happen to transit in the star of Mercury, the X sublord as mentioned above cuspal interlinks.

MORE on X:

It is humanly impossible to provide details for all these combinations. I would be thankful to people who could spend much of their time and efforts in compiling these classifications of approximately 40 million interlinks. Then alone we can single out or identify the profession of each and everyone of the 6000 millions of people who are presently living in our globe with the use of 40 million options.

The questions which are generally asked by a person about profession can broadly be classified as follows:

Category 1:

- a) Will I be in service or business?
- b) Can I attain financial, social or administrative status in my profession?
- c) Will I continue in the same profession?
- d) Will I face difficulties in my professional career?

Category 2:

- a) Will I serve in Education Department, Health Department, Defence services, Communication department, Journalism, Information technology, Banking etc.,?
- b) Will I run my own manufacturing unit or will I remain as a trader only ?
- c) Will I be carrying out my profession as a commission agent?

Questions of category 1 are related to the potential of the X cusp, i.e., they can be answered by studying the linkage of the X cuspal sublord with the other cusps. { Pl.refer PCI -pages 159-164}

- i) Study of the sign, star and sub in which the starlord of the sublord of the X cusp is placed.
- ii) Study of the placement of the starlord of the X cusp as either the starlord or the sublord of other cusps.
- iii) Of course, we also need to study, especially for financial and other status, the potential of the Asc, II house, the VI house or the VII house etc.,

Questions of category 2, can be answered by studying the linkage of other cusps with the X house and also the planets which are placed in the star or the sub of the X cuspal sublord.

As studied in the earlier chapter for the "IX house", educational qualifications would stand as means of professional opportunities only if the IV or the IX or the XI house is related to the X house. So, 75 % our present day population would not be doing jobs that are related to their educational qualifications.

Only if the Asc or the X house is linked to the X house, then one could become a respectable person in his profession. (Just 17 % of the population)

Only if the XI house is linked to the X house, then one could gain job satisfaction. (Only 8.3 % of the population)

One may not be running a Dasa that is related to the X Bhava. We need not jump into a hasty conclusion that the professional life of the person would remain in dark. Find out if there is a possibility of relief by studying with the use of subsublord or the starlord of the X cusp and its residents; It is enough if the Dasa remains somehow neutral to the X house to permit the respective bhukthies of planets that are favourable to the X house to provide success and much needed relief to the person.

Eventhough the potential of the X house and the potential of the current Dasa and the subsequent Dasa are unfavourable to render professional success, we may opt for the the study of the 12th house for a possible relief. Whatever be it, as astrologers, we must always be good to give hopes and confidence to our clients as doctors would do to their patients. It is better not to reveal the truths of unfavourable potentials to our clients as I feel that it is our social responsibility to keep the spirit of our clients alive. Our wisdom is only a drop of ocean before the all pervasive Almighty.

XI BHAVA HOUSE OF DESIRES

Wealth, Fortune, One's Influences, Elected Representatives, Society, Litigations, Business and Commerce, Writings, Profit, Accumulation of Money, Capital and Interest, Profit through Easy Means, Happy News, Effects of Fortune, Parliament, Constitutional Bodies, Corporations, District Councils, Panchayats, Government Policies and Plannings, Co-operation with Countries, Exchanges, Companies, Archives, Granary, Clubs, Discharge from Hospital, Lucky Numbers etc are some of the unrelated significations of the XI house to the Asc.

The above significations could be re-classified as follows as the significations meant to link with all the 12 houses:

- Asc: Self efforts, Cure from physical disorders, Happiness and Romance
- II: Cleverness and Abilities in Speech, Immense Money, Purchase of desired Goods and Properties

XI house is favourable to houses 1, 3, 7, 9 & 11 and would remain neutral to houses 2, 6 & 10, It would defeat the significations of houses

4, 5, 8 & 12. This could be possible only when the sublords of these houses reside in the star or the sub of the XI house. In reply, these houses tend to register their mark on the XI house as mentioned above.

Houses 1, 3, 7, 9 & 11 would be favourable to the XI house while houses 4, 8 & 12 would remain neutral to the XI house. However, houses 2, 5, 6 & 10 would act against the XI house. The above could happen when the sublord of the XI house happens to reside in the star of the sublord of the concerned houses. In reply, the XI house would make a mark on the significations of the respective houses as follows:

XI on I: Providing needed Confidence to Success in Self-Efforts of the native.

POTENTIAL OF THE XI HOUSE

In this example chart, Jupiter, the XI sublord resides in the star and sub of Mercury, the cuspal sublord of houses 2, 4 & 10. Houses 2, 4 & 10, respectively would become houses 4, 6 & 12 to the 11th house to mean that the potential of the XI house is very weak in this chart.

XI house, with its link to the houses 2, 4 & 10 would try to satisfy through income, lands, vehicles and profession etc., to the expected level of Asc; Since it is potentially weak, these satisfactions would remain only as an illusion as they would be limited to the favours of the DBA periods and Transit.

No planet is in the star of Jupiter.

Sun and Saturn are in the sub of Jupiter.

Sun is the 6th sublord.

6 on 11 would mean that the native could get loans as expected, could get assistance from partners as expected, and could win over litigations, if any.

Saturn is the 8th sublord.

8 on 11 would mean that the vehicle of

the native would meet with accidents; The native will have a scope to receive donations and unexpected success.

Planetary significations:

Jupiter (2): Gold products, Improvement in financial status

(10): **Status and Respect**

Sun: Friendship with civil servants, Gains and success in public life

Saturn: Hiding the motives, Friendship with immoral and people of lower strata.

Asc on XI

Asc is a naturally favourable house to the XI house. In this example, the sublord of the Asc, Mars is in the star of Sun, the 6th sublord and in the sub of Rahu, the 7th sublord. Houses 6 & 7 would respectively become houses 8 & 9 to the XI house to modify into an unfavourable house.

General principles of linkage of the Asc with the XI house are:

- 11,1: Depending on the friends, Concern on self-desires
- 11,2: Financial assistance from friends
- 11,3: Communications through friends
- 11,4: Visit of friends to the residence

- 11,11: Friends with integrity
- 11,12: Expenditure and losses through friends

Since the Asc is carrying a combination of 6 & 7 with it to act on the XI house, the native would gain success, would improve social contacts and could get into love affairs during the DBA periods of Mars, the Asc sublord whenever it happens to transit in the star of Jupiter, the XI th sublord.

II on XI

II house is unfavourable to the XI house. In this example, the sublord of the II house, Mercury is in the star of Venus, the 12th sublord and in the sub of Rahu, the 7th sublord. Houses 12 & 7 would respectively become houses 2 & 9 to the XI house to get modified into a favourable house.

- 2,9 Gifts
- 2,10: Building a Profession out of personal savings
- 2,12: Investments through income

XI house is neutral to the II house. In this chart, the sublord of the XI house, since it carries 2, 4 & 10 with it, would provide a

tremendous scope to the native to enrich his financial conditions, to earn through lands, properties or through professions during the DBA periods of Jupiter, the XI sublord, while it also happens to transit in the star of Mercury, the sublord of the II house.

III on XI

III is favourable to the XI house. In this chart, the sublord of the III house, Mars is in the star of Sun, the 6th sublord and in the sub of Rahu, the 7th sublord. Houses 6 & 7 would respectively become houses 8 & 9 to the XI house to modify into an unfavourable house.

General principles of linkage of the III house with the XI house are:

- 11,1: Self-courage and self-confidence

11,11: Man of courage, Iron man

11,12: Investigators

XI house is favourable to the III house. But in this chart, the sublord of the XI house, since it carries 2, 4 & 10 with it, would make the native to change his residence or place of profession, would force him to mortgage the valuables and to get a house through mortgage and would enable him to get needed assistance from others during the DBA periods of Jupiter, the XI sublord, while it also happens to transit in the star of Mars, the III sublord.

Since the IV house is carrying a combination of 12 & 7 with it to act on the XI house, the native would have a chance to learn and to get educated, to maintain affinity and cordiality with members of his family during the DBA periods of Mercury, the IV sublord whenever it happens to transit in the star of Jupiter, the 11th sublord.

DBAS & TRANSIT

We have come to the last chapter of **PART-I** of "Applications of Cuspai Interlinks". So far we have studied the applications of cuspai interlinks with its three dimensions, such as the Natal Potential, the Dasa Potential and the Transit. These three are the inseparable components of a Triangle to render results.

A: In every chapter, the Paragraph of "Potential of ...House" has detailed the natal strength of that house.

For example:

ASC	:	MAR	(6 & 7 to ASC)	:	Weak
II	:	MER	(11 & 6 to II)	:	Average
III	:	MAR	(4 & 5 to III)	:	Strong
IV	:	MER	(9 & 4 to IV)	:	Average
V	:	JUP	(10,12, 6 to V)	:	Weak
VI	:	SUN	(7,12 & 6 to VI)	:	Weak
VII	:	RAH	(1 & 12 to VII)	:	Weak

XI	:	JUP	(4, 6 & 12 to XI)	:	Weak
XII	:	VEN	(10 & 1 to XII)	:	Strong

Only Houses 3, 9 & 12 are **Strong**.

Houses 2, 4 & 10 are Neutral (Average)

C: Every planet always transits in a star and a sub. The said planet through its starlord and the sublord obtains linkage to the houses of significations of the concerned starlord and the sublord. Please remember that the starlord shows the involvement and the sublord shows the result.

For example, Sun as the 6th sublord (12,5,11) in this chart, if it transits in the stars of

KET	2	: Eamed income
VEN	12	: Investments through borrowings
SUN	6	: Loans
MOO	9	: Financial crisis arising out of excessive borrowings
MAR	1,3	: Diseases
RAH	7	: Disputes with wife
JUP	5,11	: Assistance from friends and agreements
SAT	8	: Increase in loans and diseases
MER	2,4 &10	: Professional success

These are only the trend and the involvement but the actuals are rendered only by the sublords.

STAR SUB

KET.....VEN .	2, 12.....(11 to 2)
KET.....SUN .	2,6.....(5 to 2)
KET.....MOO	2,9.....(8 to 2)
KET.....MAR.	2, 1, 3.....(12 & 2 to 2)
KET.....RAH .	2, 7.....(6 to 2)
KET.....JUP..	2,5, 11.....(4 & 10 to 2)
KET.....SAT..	2,8.....(7 to 2)
KET.....MER..	2, 2, 4, 10 (1, 3 & 9 to 2)

and it would go on upto the Venus-Ketu. With its significations of 6, 12, 5 & 11 while in Ketu star, Venus sub acts on 2 & 12 to mean the native making reinvestments by acquiring loans. However, Sun, during its transit in the star of Ketu, would restrict and confine its involvement only to the II house. If the native is not running the DBAS periods of Sun then we need not bother about the transit of Sun at all.

However, there may arise a situation when we would have to concern about the transit of Sun for predicting the lesser important events of life, i.e., during Sun star days.

Also that Moon, during the course of its transit in the stars of the remaining 8 planets other than that of Sun, would transit in Sun bhukti,

i.e., almost once in every day. Moon would transit in Sun antara for 9 times (approximately for not more than 12 minutes) in a star day and in Sun **sookshma** for 81 times (approximately for not more than 2 minutes) in a starday. It is more than enough for the planet **Sun**, to cater through these 81 opportunities to register its role as the 6th cuspai sublord in the daily life of the native, by influencing on his food habits, dressing sense, receiving assistance from friends, petty differences with his wife etc.,

This is how all the 9 planets act on the daily life of a person through the transit of Moon in their respective star and sub.

Thus, all the 9 planets as agents of the 12 Bhavas act at every moment of our life. Or in other words, every small event of life would come to stage only when all the 9 planets combinedly act for the same.

Since "PART I" has been conceived as a book of general study, we have not discussed much about the noteworthy events of life, such as date of marriage, child birth, death of a parent, major accidents, professional success etc of the native through this example chart. Of course, I hope that the readers would also understand the fact that these things could not be meaningfully explained with only one example chart. Hence, with your co-operation, I would like to reserve my explanations about these details for PART II of this book, "Applications of Cuspai Interlinks - Specific studies" with various example charts.

However, let us analyze this chart in a different angle. We have so far studied this horoscope from "IN to OUT" method, i.e., from natal potential we have derived the predictions for all the DBAS periods. We can also study this horoscope from the other way too, i.e., "OUT to IN", from the current DBAS to predictions.

For example, on 01.01.2002, at about 7

am, the native would be running

1. RAH DASA
2. MOO BHUKTHI
3. VEN ANTARA
4. JUP SOOKSHMA

DASA:

Dasa lord Rahu is the sublord of the 7th house and transits in its own star and in the sub of Sun. By being the cuspai sublord, the Dasalord Rahu would Signify the matters of the 7th house and would drive the native to commit and involve in the significations of the 7th house. But due to its residence in the sub of Sun, the sublord of the 6th house, being the 12th to the 7th, these involvements would face hurdles and difficulties.

Does it mean that, the Dasalord would always be troubling the native? Here comes the answer from TRANSIT.

DL-Rahu: 02 D 28 M in Gemini: MAR star (1,3), KET sub (2).

Rahu, the 7th sublord, as a carrier of 7 & 6 with it always, is at present transiting in the star of Mars, 1 & 3 and in the sub of Ketu, the resident in II Bhava.

There would be communication problems between husband and wife, as signified by the Dasalord.

BHUKTHI:

Bhukthi lord is Moon, the sublord of the 9th house and is in the star of Sun, the 6th sublord and in the sub of Rahu, the 7th sublord.

Bhukthi lord, by being the 9th sublord, a favourable house to the 7th house, which is being strongly signified by the Dasalord, favours and stands in accordance with the Dasalord for a collective execution of involvements in the 7th house matters. Since Moon resides in the star of Sun, the 6th sublord, it is also going to trouble like Rahu to the 7th house matters. The sublord of Moon is Rahu, the 7th sublord. Here 7th becomes the 11 house to the 6th to strengthen the 6th house matters.

These results are common for 18 months. But drawing this general nature to specify events of a day, we have to study the transit of the Bhukthi lord, Moon. It transits in PUSHYA & ASHLESHA stars, the stars of Saturn and Mercury on 01.01.2002. Saturn denotes the 8th house. 8th house is favourable to 6th house to favour the natural potential of the planet Moon.

Since the 9th sublord Moon transits in the star of 8th sublord, he is destined to face disagreements with others.

ANTARA:

Venus is the Antara lord. It is the 12th sublord and resides in the star of the 9th sublord. Hence houses 9 & 12 would be operated during Venus Antaras. Houses 9 & 12 become houses 4 & 7 to the 6th house, the combined signification of the Rahu Dasa & the Moon Bhukthi. So the Antara would try to put a break on the combined effects of the DB lords.

Venus Antara would run for about 3 months in Rahu Dasa, Moon Bhukthi. During these 90 days, Venus would nearly transit in 6 to 7 stars. On 01.01.2002, the planet Venus is in 13 D 21 M in SAGITTARIUS. It is very strong with its natal natures, as it is in its own star and sub. Hence the planet Venus would reflect its natural and natal strength for the native in secret and illegal involvements.

SOOKSHMA:

Jupiter is the sookshma lord. It is the sublord of houses 5 & 11. Houses 5 & 11 would become 12 & 6 to the 6th house, the

signification of the DB lords; Houses 5 & 11 would become 9 & 3 to the 9th house, the signification of the Antara Lord. Hence Jupiter tends to be on the side of Venus, the AL. Jupiter sookshma would last for 12 days in Venus Antara. On 1.1.2002, the planet Jupiter is in 16D 47 M in GEMINI, to stay in Rahu star, Venus sub. Jupiter is in the star of DL and in the sub of AL. Sub is stronger than the star and hence Jupiter would stick to its standings with Venus.

DL Rahu & BL Moon are on the one side and AL Venus & SL Jupiter are on the other side to the 6th house significations.

Sookshma forces the native to suffer with disharmony in his family life.

STAR DAY:

Let us put aside for sometime the fact that Moon is the Bhukthi lord. In the series of DBAS periods, stardays are the minute parts. Here on 01.01.2002, Moon transits in Saturn star from the early morning and enters into Mercury star at around 9 pm. So the whole day is in the control of Saturn.

DASALORD of the DAY:

Saturn is the cuspai sublord of the 8th house and it always carries 1, 3, 5 & 11 with it.

Saturn, is in the star of Moon (9) and in the sub of Jupiter (5 & 11) would enable the native to gain new acquaintances.

BHUKTHI LORDs:

KET signifies	II house	upto	06.57 am
VEN	XII		10.37
SUN	VI		11.43
MOO	IX		01.33 pm
MAR	I, III		02.50
RAH	VII		06.08
JUP	V, XI		09.04 pm

During these periods the general trend would be according to their natural significations, provided their current transits also favour their natal natures. Let us see about the transits on **01.01.2002 at 0700 Hrs:**

		Star	Sub		
KET	is in	KET	VEN	(2 & 12)	- Strong
VEN	is in	VEN	VEN	(12*)	- Strong

SUN	is in	VEN	MOO	(12 & 9)	-Weak
MOO	is in	SAT	VEN	(8&12)	-Weak
MAR	is in	JUP	SAT	(5, 11 &8)	-Weak
RAH	is in	MAR	KET	(1, 3 & 2)	-Weak
JUP	is in	RAH	VEN	(9&12)	-Neutral

Transit-wise, Venus is the strongest planet. Events that happen during Venus bhukthi, that is from 6.57 to 10.37 am are the events to mark in the diary of the native's life for 01.01.2002.

Thus we can also extend our study to the ANTARAS of the DAY and to the SOOKSHMAS of the day.

LAGNAS (Ascendants) :

The earth revolves about itself once a day to mean that there would arise all the twelve signs as ascendants of each day. These ascendants also denote a point or two in our life.

In this example chart

Vrischiga/Scorpio is the... Ascendant sign
Dhanus/Sagittarius.....II
Makara/Capricorn.....III
Kumbha/Aquarius.....IV

Meena/Pisces.....	V
Mesha/Aries.....	VI
Rishabha/Taurus.....	VII
Mithuna/Gemini.....	VIII
Kataka/Cancer.....	IX
Simha/Leo	X
Kanni/Virgo.....	XI
Thula/Libra.....	XII

For the matters of the daily routine, the sign, that is rising as Ascendant in the east would denote the significations of that concerned Bhava. If the planet Moon coincides with the series of lords of the Ascendant, then the event matures into a reality.

CONCLUSION

About PART II:

Part II of the "Applications of Cuspai interlinks" would contain the study of different charts for a single question. For example we may have to study the prospects of marriage, married life and children or the prospects of employment opportunities and professional success etc., As you know, these are not easy questions to answer. For these questions, only when we **become** familiar with a set of horoscopes, we can easily formulate a uniform

methodology of applications of Cuspai Interlinks.

About PART III:

In my early days of astrological studies, I was more interested in the study of smaller events of life and the daily routines. There are more than a few hundred questions before us for the study of our day-to-day life.

1. Will the person turn-up ?
2. Could I meet her ?
3. Could I get loans ?
4. When will the expected person return back ?
5. Will I receive the expected message ?
6. When will I catch the bus ?
7. When will I reach the destination ?
8. Will I get my lunch in time ?
9. When could I finish the work?
10. When will I receive the payment? and so on.

As you know, these things could be studied by the Natal Chart also. But drawing a specification by narrowing down the DBAS periods, and study of the Star of the Day and **Bhukthies**, antaras, **sookshmas** and the corresponding sign, star and sub of the Ascendant, is laborious and time-consuming. For

these cases of daily routines, we may opt for the study of horary charts. In Part III, I have opted to detail the study of the horary charts alone.

Points to ponder:

The Principles of Zodiac or Kalachakra gain an importance in denoting the style of an event. The planets and kalachakra unitedly determine the various types and kinds of persons and events whom the native happens to meet in a single day. From this example chart, on 1.1.2002, since it is a Saturn star day, 1, 3, 5 & 11 would be in operation for him. It means that the matters such as communication, happiness, short journeys, mutual agreements and harmony are due to happen. What kind of joy and with what kind of persons would also be determined by the corresponding Ascendant and the sign TAURUS, the sign in which Saturn, the starlord of the day of transit of Moon is positioned.

Presume that the the **native** is a small vendor. If so, why should a person who has travelled more than a thousand kilometres across the country happen to meet him to buy a packet of cigarettes? Why should a retired officer of **ITS** cadre and a famous astrologer of our times converse through telephone at a particular time?

Why at all do we receive wrong calls sometimes?

It is due to the rise and fall of not only the 12 signs, but also due to all the 27 stars and 243 "Kaalamsaas" or subs in a single day. Every sign or star or sub has its own style. These factors should also be taken into account for accurately pinpointing the details of an event.

The native lives with his wife for nearly three quarters of his life; The native gains a few friends and maintains their friendship for more than half of his life period. The native enters into a successful business agreement with a partner for a few years. The native establishes a business contact with a person for a few months. The native enjoys the company of a person for a few days. The native co-travels occasionally with an outstanding personality or a VIP for a duration of a few minutes. The native buys a pair of bananas from a street vendor within a few seconds. The native meets with a pedestrian, in accidents for a few micro-seconds. All these persons and the personalities are generally denoted by the VII Bhava. How to distinguish or to differentiate each one with the other?

VII Bhava - Permanent and legal ties

IX Bhava - Illegal ties with unknown persons

XI Bhava - Persons who come to share the

joy of the moment

III Bhava - Persons as commercial contacts

IV Bhava - Artistes and others

i) Persons, who had their birth in the stars of the 7th cuspai point establish permanency in relations. For example, in this chart, the 7th house is "VEN-MOO-RAH-MER". Mercury borns and Rahu borns would prolong their relations with this native for a longer period.

ii) The native is currently running Rahu dasa. Persons born in Rahu star would sail along with the native for almost during this Rahu dasa.

iii) Persons born in Moon star would come, meet and may live with the native till the end of this current bhukthi period.

iv) Current Antara is that of Venus. The native would meet the Venus borns, of course to stand as means for the wasteful expenditures of the native (12).

v) Current Sookshma lord is Jupiter and the Jupiter borns would also be met by the native.

vi) Current starday(01.01.2002) is Saturn.

People born in Saturn star or of lower strata would be met by the native on 01.01.2002.

vii) Between 10.30 am to 11.40 am on 01.01.2002, the native would meet with persons born in Sun stars, or with civil servants or orthopaedicians etc.

Why do these persons carry a chance to meet with the native? Because they would also be running their own respective and matching DBAS.

Imagine that the native travels in a bus and he occupies the middle seat of a three seater. The person who sits on his right side is denoted by the II house. That is why in Hindu marriages wife is asked to stand or sit on the right side of the husband. The person who sits on his left side is denoted by the XII house. The person who is sitting on the left side leaves his seat and finds a better seat in the bus after a few minutes. It is so, because the sub, the star and the sign of the Asc have moved in this duration.

The co-author and the driving force of this book, Shri **S.P.Khullar**, I.T.S., used to ask this author to attempt to detail the astrological mode of distinction between the younger brother and the father-in-law as both fall in the category of

the III house, between the wife and the second child (VII house), between the second wife and the third child or the grandchild (IX house), etc.,

It is not generally advisable to study the details of these relatives with the use of the horoscope of a person under study. Readers would have noticed that in all the preceding chapters, we had never attempted to make separate predictions for anybody other than the native himself. For example, even in the chapter for the VII house, we have only discussed the prospects and problems to be experienced only by the native, rendered by the wife, the partner or the society.

But, as a part of our study of astrological concepts and cuspal interlinks, I know that, I have an obligation to share some of my experiences and views, though they are subject to certain limitations.

All the social relationships of a person could be classified into two categories :

1. Relationship of the Asc, as acquired directly by the native: Father, Mother, Brothers and Sisters, Sons, Daughters and Wife or Wives. These relationships, are denoted by Asc and the respective houses.

2. Second tier of relationships such as in-laws, are acquired relationships through the prime tier of relatives. For example, Father-in-law is a relationship acquired through wife that is the 7th house. While 1 & 3 are in operation, it stands for younger brother. While 7 & 3 are in operation, it denotes about his father-in law. 1 & 9 denotes either father or the second wife while 5 & 9 denotes the grandson.

Now even in the prime-tier of relationships, the 7th house denotes wife and the second child. Many people live with their second child even after the death of their wives. In our modern times quite a few people abort the second pregnancy and live happily with their wives and first child. How could it be? When the Dasa denotes 1 & 7 and a set of unfavourable results to 1 & 7, then it is due to wife. When the DASA denotes 1, 5 & 7 and a set of unfavourable results, it is due to the second child. If it is 1, 3 then it is younger brother. If it is 1, 3 & 5, then it is second younger brother. If it is 1 & 5 it is the first child. If it is 3, 5 & 11, then it is wife of the second younger brother. When it is 5 & 11, it is first daughter-in-law. When it is 7 & 5, it is elder brother in law. 4 & 6 denote aunty while 7 & 10 denotes mother-in-law. 9 & 11 denotes sister of the father while 5 & 11 denotes the second grandchild.

These complexities could better be handled with the use of current DBAS and transit and not with the Natal potentials; Of course, astrologers of the 21 st century would not find these kinds of troubles in the coming future as the Indian joint family system is slowly made to wither by small and compact family norms.

I would once again like to remind the readers that I have only multiplied the scope of distinctions of events with the use of cuspai interlinks and I am aware that nothing is complete in itself. I would like to advocate the readers to confine the use of principles of cuspai interlinks as a means and a way to proceed further in a scientific and rational direction.

GOOD LUCK
